

NEXTGEN WINDOWS WORKSHOP

Hybrid work and transformational end user computing experiences

In our new world of work the endpoint is the new workplace, and hybrid work is driving the endpoint strategy. The shift to remote and hybrid work represents a shift in how we think about providing people with the tools they need.

Most organisations anticipate seeing more usage on cloud platforms than ever before. As a result, optimising existing investments in cloud solutions remains a top priority.

Through the NextGen Windows Workshop, our experts will demonstrate how to:

- Better understand when and how to leverage Cloud PCs with Windows 365.
- Manage virtual endpoints across Windows 365 and Azure Virtual Desktop.
- Leverage Windows 11, the most secure OS yet, to enable hybrid work for all employees.
- Implement some best practices for endpoint management with Microsoft Endpoint Manager.

NextGen Windows Workshop Highlights

Focus on priorities, initiatives and key influences in your hybrid work and end-user computing strategy.

Learn about end-user computing strategies, Windows 11, and Windows 365 to drive endpoint modernisation for your organisation.

Work together on showcasing Cloud PC provisioning and management with Windows 365 in a production environment.

Plan next steps on how Six Degrees will enable you to optimise your cloud investment.

Why You Should Attend

Understand your hybrid work scenarios and end-user computing goals and objectives.

Gain insights into your device landscape for both physical and virtual endpoints.

Learn about Windows 365, Azure Virtual Desktop and Windows Autopatch solutions that provide a secure desktop experience from virtually anywhere.

Experience Windows 365 Cloud PC provisioning and management with Microsoft Endpoint Manager.

Why Six Degrees?

When it comes to endpoint management and security you need an experienced partner. Six Degrees has seriously strong Microsoft credentials – as one of the first Azure Expert MSPs in the UK, we have the resources, capabilities, and partner relationships to give you confidence that we are best placed to enable you to manage and protect your devices, your apps, and your users.

Six Degrees is a Microsoft Solutions Partner for Modern Work, as we have demonstrated a broad capability to help organisations boost their productivity and make the shift to hybrid work using Microsoft 365.

Our Credentials

Member of
Microsoft Intelligent Security Association
